FOREWORD

It has been said by many noted gardeners that New Jersey can grow anything. To a certain extent this is true, but there are a few things that we, here in Red Bank, have been extremely successful, not alone in growing, but in raising to an enviable standard of perfection.

It has given us far greater pleasure to produce better stocks of these limited numbers of classes, than producing a mediocre quality of numerous other classes, to which it would be impossible for us to give that attention now absorbed by those we might call our "**Specialties.**"

DAHLIAS of course are our chief favorites; we devote much time to their culture and hybridizing, and are proud of the favorable notoriety some of our great seedlings have brought us. Our introductions of the past few years are still in the running with present day leaders.

We have also been interested in the choicer stocks of **GLADIOLUS**; and for raising and producing splendid bulbs on our New Jersey Farm.

HARDY PERENNIAL PLANTS (the most satisfactory of all garden flowers, because of their permanency, easy culture, and prolonged blooming season) are produced in great quantities, and we have a splendid lot of field grown clumps for distribution this Spring. Our offerings in these are confined exclusively to the choicest kinds, many indeed are rare and uncommon, while our lists of Iris, Hardy Asters, Delphinium and Phlox, etc., comprise the cream of the known beauties in these classes.

PLACE YOUR ORDERS NOW. We shall be glad to book orders now, before the planting season, with its inevitable rush of orders, commences, and reserve such stocks as you desire for your garden this year, all of which will be shipped as the proper time for planting approaches.

Red Bank, N. J.

Please Read Before Ordering

Order Early—Do not delay ordering until planting time, as many varieties will be sold out. As orders are received, stock will be reserved and sent at the proper time, or sooner if requested.

Terms—Remittance with order on or before shipment. Retail orders are delivered prepaid. Please remit by bank draft, Post Office money order or registered mail. No stock sent C.O.D. unless 50 per cent of purchase price accompanies order.

Shipping—All orders taken at the Dahlia Shows and Gardens last fall, and those received this spring will be sent around May 10 unless otherwise requested.

Our Guarantee—We guarantee every bulb, root or plant sent out to be true to name and color, also to be in growing condition when received, after which our responsibility ceases. Please notify immediately if anything is unsatisfactory, when received, or if any tuber or plant does not grow after planted a reasonable time.

Substitution—We do not substitute unless requested to do so, but would suggest naming a second choice.

Name and Address—Be sure to write name and address plainly. Specify time you wish order to be sent. Keep a copy of your order for comparison.

ELITE GLORY

This dahlia was a consistent prize winner throughout the country during the past season. From all parts have come reports of wonderful success with Elite Glory, both in the garden and show room.

The massive blooms of radiant bright red are held perfectly erect on strong, cane-like stems. Tough leathery foliage makes it practically immune from attacks of insects. It is considered by experts as the most distinctive dahlia to date.

Plants \$2.50; Tubers \$5.00

"Dahlias Elite"

High up on the roster of "What is best in Dahliadom" are inscribed the merits and beauties of "Dahlias Elite." We take pleasure in offering the following named varieties of recent and also previous introduction. The acclaim and prizes they have won for themselves are assurances of their high calibre, their exquisite beauty and their sturdiness of growth. We offer them with every confidence of their giving the maximum of satisfaction to the most discriminating and exacting dahlia "fans."

ELITE PEACH

A fine exhibition decorative that has won high honors wherever shown. The fine blooms are of a salmon buff or peach blossom pink and are held well above a vigorous growing bush, on long rigid stems. A one-tone flower of exquisite charm and beauty.

This dahlia was greatly admired at the shows and in our gardens the past season. Its fine blooming qualities and good habit of growth make it one of the most distinctive dahlias in our display garden. **Plants \$2.00; Tubers \$4.00**

ELITE SURPRISE

A rich deep red Hybrid Decorative of fine form. It won the Court of Honor prize at Atlantic City as Best Eastern Introduction and also as Best Bloom in the entire Court of Honor.

It is a much admired flower of vigorous growth with good habit, and strong stems holding perfectly erect, the large blooms, which are full to the center and produced in abundance until frost. As a long keeping cut flower it is unsurpassed. The blossoms do not burn in the sun. **Plants \$2.00; Tubers \$4.00**

ELITE GEM

A true American Cactus of fine form. Winner in the cactus classes at New York, Trenton and Atlantic City. Medium sized blooms are supported on fine stiff stems. Color is spinel pink blush on primuline yellow at the base; reverse rosaline purple. The plant is a vigorous grower and blooms continuously throughout the season. **Plants \$2.00; Tubers \$3.00**

New and Recent Introductions of Merit from Other Growers

Each year brings its quota of Dahlia Novelties. Some prove consistently good while others fail to measure up to the standards demanded by keen dahlia lovers and are discarded. We have tried out all the varieties listed herein and have carefully tested their qualities. We feel that the following list contains a peerless collection of the better varieties. A selection of any of those offered will insure the greatest satisfaction and pleasure. Owing to the unusual demand for good dahlias we earnestly recommend orders being placed as early as possible.

1928 Introductions are marked (*).

ADDA PATTERSON. H. C. (Kemp). The flowers are pure white and are held well above the foliage on stiff stems. A good keeper and equally good for exhibition and decorative purposes.

Plants \$2.50; Tubers \$5.00

ADELINE LORBEER. C. (Broomall). Color is spectrum red, without shading. the medium large flowers are produced on fine stems. Stands hot sun without bleaching or burning and keeps well as a cut flower.

Plants \$3.50; Tubers \$7.50

ALICE WHITTIER. H. C. (Reed). A very large deep bloom; with stiff stem and good habits of growth. Color is a delicate shade of primrose yellow.

Plants \$2.50; Tubers \$5.00

ALTAMONT. Dec. (Kemp). Rose pink, deepening to American Beauty rose toward the center of the flower. Long, slightly, curled petals give the individual blooms a very artistic finish.

Plants \$2.50; Tubers \$5.00

AMARILLO GRANDE. H. D. (Broomall). Color is a light yellow. Flowers are enormous and produced in abundance. This dahlia won many prizes during the past season, often for the largest and best bloom.

Plants \$2.50; Tubers \$5.00

AZTEC GLORY. Dec. (Broomall). Flowers are of a rich clear golden yellow, without tints or blends. One of the "big fellows". And when the blooms attain large size the flower has an added distinction in the curl of the end of the petal.

Plants \$5.00; Tubers net \$10.00

BARBARA REDFERN. Dec. (Redfern). Color is a combination of old rose and gold. The outside of the petals is dull gold, the reverse is delicate old rose. Owing to their formation both colors show at once. A clean healthy grower, blossoms early and blooms continuously on fine, strong stems.

Plants \$3.50; Tubers \$7.50

ELITE PEACH (See page 4)

BEAU IDEAL. (Dec. (Boston). Flowers are pinkish lavender, sometimes going to clear pink. Resembles Mariposa but it is decorative in form. Stems are long and stiff and carry the blooms above the foliage.

Plants \$3.50; Tubers Net \$7.50

BERENGARIA. (English Dec.) Color is orange in the center, shading to gold, giving the flower a golden sheen in the sunlight. Immense blooms held erect above sturdy plants.

Plants \$3.50; Tubers Net \$7.50

"The Old Fashioned Flowers"

HARDY PERENNIALS

Hardy Perennials are like old family friends; they never leave us, but grow more and more beautiful and beloved as the years roll by. Year after year they come up to greet us with the charming beauty and gorgeous coloring of their flowers and foliage, just as they greeted our mothers in the days of yore. Where can one find plants so attractive, so appealing to the eye, which can be put to so many uses? For the border they are most satisfactory, for filling in the front of shrubbery they are unexcelled, for massing on the lawn they are superb, while for cutting they are superlative.

With a little care you can have a profusion of interesting and enchanting blooms from early April to late November. Prolong the blooming period by keeping the flower stalks cut out close to the ground and not permitting them to form seed. Most early-flowering varieties will bloom again in the fall if cut back close after their first blooming period. After the first hard frost in the fall, cut down the tops to within three inches of the ground and give the bed a good coat of half-rotted manure which will protect the plants and enrich the soil; dig this under in the spring before the new growth starts.

HARDY PERENNIALS—Cont'd

All perennials (unless otherwise noted) Ea. 20c; Doz. \$2.00; 100-\$12.50.

ACHILLEA (Milfoil)

Millefolium Roseum (Cerise Queen). 18 inches—Large flat heads of bright cherry red flowers on slender, stiff stems, in great profusion from early June until autumn.

Ptarmica Fl. Pl. (The Pearl). 12 to 18 inches—Clusters of white, perfectly double flowers all summer. Excellent for cutting.

ALYSSUM (Madwort)

Saxatile Compactum (Dense Golden Tuft. Basket of Gold). 9 inches—Flat clusters of small, cheerful light yellow flowers in early spring, so numerous as to envelop the plant; and small, pretty, glaucous leaves.

ANCHUSA

Italica (Droppmore Variety). One of the most valuable of the recent introductions. The plants are vigorous and branching, growing from three to five feet in height. The flowers are borne on long, pyramidal, graceful spikes; color beautiful clear, bright blue; a shade peculiar to this variety. Its blossoming season is in June and July.

ANTHEMIS (Chamomile)

Tinctoria (Golden Marguerite). 2 feet—A bushy plant with dark green, finely cut foliage and clear golden-yellow flowers. June-July.

ARABIS (Rock Cress)

Alpina. One of the most desirable of the very early spring-flowering plants that is especially adapted for edging and for the rock garden, but does equally well in the border, forming a dense carpet, completely covered with pure white flowers. Excellent for cutting, lasting a long time in bloom. Blooms in early spring.
